I am a motivated and detail-oriented professional with strong organizational and IT skills, and the ability to quickly learn new systems. Work experience and studies have developed skills in web design, web development, documentation, time management and teamwork. As a graduate of web development training, BBA and on-going MBA specialized in SAP ERP systems, I bring the combined skills of business administration and the creative aspects of quality, user-friendly and scalable web development solutions.

SKILLS

Software development skills

Web development frontend and backend (React, Next.js, Remix, TypeScript, Node.js, Express, MySQL, PostgreSQL, MongoDB, Firebase, AWS EC2, Lambda, API Gateway, CI/CD Pipelines), Git, Jira, Microsoft Office (Word, Excel, PowerPoint, Outlook, Teams), SAP ERP basics

Administrative skills

Documentation, time management, team collaboration, coordination between departments
